

Schooling species of bait fish breathe from swimming while allowing water to pass over their gills. When held in the relatively small confines of a bait tank the fish suffer from a lack of oxygen as they can not swim fast enough to provide enough water to pass over their gills. A Pro Flow tank, with its patented directional flow water inlet baffle, allows water to enter evenly throughout the entire water column.

The slots in the baffle plate are cut at an angle, directing water against the side wall and creating a circular directional flow. This flow actually pushes fresh, oxygen-rich water over their gills - which keeps the fish swimming in the same direction and reduces collision, a major cause of scale loss in bait tanks. A no-clog drain baffle provides drainage over the entire water column.

The molded-in slosh guard keeps slosh and wet decks to a minimum. The light dome in the bottom of the tank eases nighttime access and prevents fish from hitting the walls in the dark. All tanks come with "L" mounting brackets, a durable molded cover (Model PF-42 has a solid poly cover) and are covered by a no-nonsense 1 year warranty.

**Oblong Pro Flow Bait Tanks**

Space-saving oblong tanks available in 4 sizes come ready to fish. Connect to your bait pump and you're off for the fishing grounds. Models PF-22 and PF-32 are tall enough to drain over most outboard wells or mount on your swim step.

Model#:	Capacity	Dia. X Ht.	WT Full/lbs.	WT Empty/lbs.
UT-13	13 gal.	22.25" x 13.75" x 17"	120	15
PF-22	22 gal.	17" x 22" x 24.25"	201	18
PF-32	32 gal.	17.75" x 26" x 26.25"	293	26
PF-42-3 SP	42 gal.	21.75" x 29.25" x 32"	453	38

**Round Pro Flow Bait Tanks**

Like all Pro Flow tanks the walls are smooth with baffles flush to the tank walls and nothing for the fish to collide with.

Model#:	Capacity	Dia. X Ht.	WT Full/lbs.	WT Empty/lbs.
PF-14	14 gal.	16.25" x 23.25"	131	14

**Thru-Hull Bait & Washdown Pumps**

**You won't have to worry about salt rusting out this pump!**

Its non-corrosive design will stand up to even the harshest environment. Low amperage per gallon of water output ratio is another real plus for boats with limited charging systems. All Kodiak pumps are whisper quiet, so you won't scare the fish away. Thru-Hull models feature full port 3/4" female pipe thread for direct thru-hull mounting. Models K-360 thru K1100 feature an additional threaded port for the hose attachment to a diaphragm type washdown pump.

Model#:	Flow per min.	Average Draw	Suggested Bait Tank Size
K360	3.4	1.8	7-16
K500	5.0	2.3	17-30
K700	8.8	3.5	30-40
K1100	10.5	3.9	37-45

Kodiak's new cartridge-style pump shown to the right is available in 2 sizes, K500C and K700C Thru-Hull Mount and KB500C and KB700C Transom Mount. The motor snaps out of the water jacket, allowing fast cleanout of weeds and easy "on the water" replacement.

### Angler Series Bait Tanks

Kodiak offers 4 standard bait tanks--a favorite among many anglers for many years. From our "easy to fit in tight places" KA-24 to our large-capacity KA-50, all the walls are smooth with nothing for the fish to collide with. Molded-in hand grips for easy handling and stainless steel mounting brackets. Tanks are easily accessorized with all our pumps and bait tank accessories.

Model#:	Capacity	Dia. X Ht.	WT Full/lbs.	WT Empty/lbs.
KA-24	24 gal.	20" x 18"	211	11
KA-26	26 gal.	30" x 16 <sup>1/4</sup> x 15"	235	18
KA-30	30 gal.	23" x 17"	264	14
KA-50	50 gal.	29" x 18"	443	26

### Pro Flow Transom Mount Tuna Tubes

Tuna Tubes are white on the outside, black on the inside. Bonito Tubes are solid black. The black interiors keep bait calm and alive longer. Tuna Tube has an 8" ID, is 24" long and will hold a tuna up to 20 pounds. Bonito Tube has a 5" ID and is 22" long. Quick disconnect transom mounting brackets are anodized and white powder-coated for long life. Small transom mount nuts mount to transom and brackets clip to nuts. Tubes are easily removed by removing one 3/16" detent pin. Tuna Tube sets come with a 6" insert for smaller bait. Plumbed for 1" hose. Double's are 2 sets of brackets mounted together and only require 4 mounting nuts on transom.

Description	Double Tuna Tube	Single Tuna Tube
Model#:	PFTT-80-2	PFTT-80

(Pump recommendation 700GPH or more)

### Accessories

#### A. New LED Bait Tank Light

12-Volt light fits under tank and shines through bottom to illuminate tank. For night use. Model#: PF-001 (One size fits all Pro Flow tanks.)

#### B. Solid Cutting Board Lid

1/2" thick pebble finish cutting board lid  
 Model#: PF-14C fits PF-14, PF-26, KA-24 and KA-30  
 Model#: PF-22C fits PF-22  
 Model#: PF-32C fits PF-17, PF-27, PF-32 and KA-26  
 Model#: PF-52C fits PF-37, PF-42 and PF-52

#### C. Quick Disconnect Mounting Pad

4 Low Profile pads mount permanently to deck or swim platform, tank (L) brackets mount to pads. Tank and mounting (L) brackets can be quickly removed, black anodized aluminum with hardware. Model#: PF-003, PF-004 (Fits PF-52 tank, 6 pads)

#### E. Bait Tank Plumbing Kit Model#: KW1

For the do-it-yourselfer. All the fittings and instructions needed to build a standard live well.

(A perfect match for all Kodiak Angler Series tanks.)
